

TECH IN RETAIL

That's Cool...

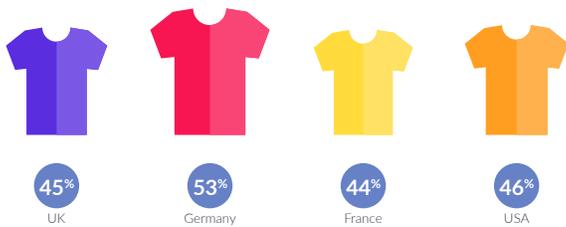

Payment & delivery via fingerprint

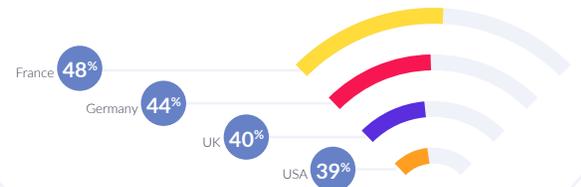

Voice recognition for search & ordering

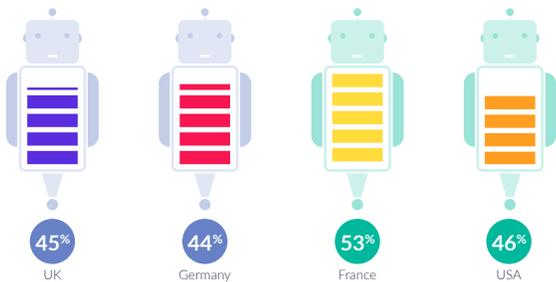

Interactive changing rooms & mirrors that give suggestions

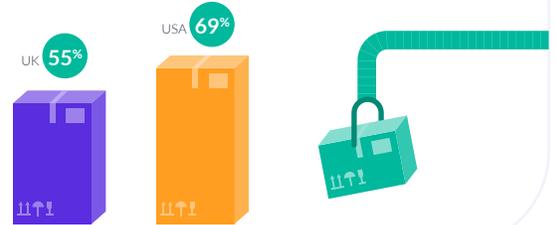

Contactless shopping: walk out instead of check-out

Robot store guides

AI that chooses & orders products for you

Facial recognition relaying customer information

AI/chatbot customer service

That's Creepy...

*Methodology: The survey was conducted online in June 2017, and included 1,000 US adults, as well as 2,500 European respondents.
